Impact Report

2025

FAITHFUL IN 2025

God was Faithful to Seed. Grow. Multiply. in 2025. Love INC was consistently faithful in showing love in the name of Christ to our neighbors. Volunteers, board members, partner churches and others were faithful in service during 2025.

PLANTING SEEDS AND CULTIVATING COMMUNITY

Statistics can miss the whole story of impact. Here are some stories of Love INC planting seeds of transformation and cultivating community.

SEEING WHAT IS IN YOUR HAND

God often does miracles through what we have. Whether it's a few loaves and fishes or some jars gathered from your community, God invites us to participate in our miracles. Sometimes these miracles can't be measured. One day in 2025, as "Sally" shared her fear and shame from her unexpected financial need with our receptionist, she suddenly decided to stop the intake. The receptionist's compassionate listening had helped her realize that she didn't need to be ashamed and that she should open up to her church community group about her need.

RELAPSE PREVENTION

"Stephanie" called us in 2025 to share a testimony of God's goodness. She had first called Love INC in 2013, but it had been a few years since we had heard from her. As we chatted, she shared a way that Love INC had been important to her over the years that we didn't know and had never measured. She said, "Love INC helped in relapse prevention." She was about to celebrate 30 years sobriety and during hard times she knew she could call Love INC for help with physical needs, but also for prayer and hope.

FAITHFUL: SEED. GROW. MULTIPLY

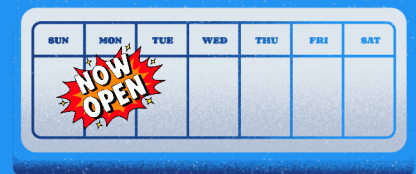

During the seed stage, growth can be hidden and not obvious but it is full of potential.

Love INC planted seeds by connecting with churches, neighbors, and community organizations. On August 26, we hosted a Church Community Conversation. Fifteen leaders from local churches joined the conversation facilitated by Love INC and ministry leaders from Project Homeless Connect, Salvation Army, NAMI, and Sequoia Mental Health.

The grow stage is when we are starting to see some new development.

Love INC saw growth when, on April 7, God answered our prayers regarding opening another day of the week! We are now open Mondays, answering calls from noon until 2:30 p.m.

The multiply stage is when the growth is spreading, propagating, and self sustaining.

God brought two new staff members to us in 2025. In addition, the staff had two opportunities to interact on a local as well as a national level this year.
